RESEARCH GRANTS

Active Projects

Co-Investigator, *Investigating Self-Management of the Dual Diagnosis of HIV and Diabetes* (J. A. Zuniga, PI), R15 NR017579 NINR/NIH. This mixed method study tests a model of diabetes with persons with HIV and diabetes by using qualitative interviews and secondary analysis of a large national data set. January 1, 2018-December 31, 2021, budget of \$452,552 (direct and indirect costs).

Co-Investigator, *Diabetes Prevention Culturally Tailored for Mexican Americans* (S. Brown and C. L. Hanis, Multiple PIs), R01 DK109920. The study adapts the PIs' successful culturally competent diabetes self-management education strategy into a primary prevention intervention and tests its impact on Mexican Americans with prediabetes. 04/01/17 – 03/31/22, budget of approximately \$3,266,270.

Co-Director of the Community Engagement/Translation Core, *Center for Transdisciplinary Collaborative Research in Self-Management Science*. The goal is to create a model national center to develop, test, and disseminate innovative self-management solutions to improve health outcomes of people with chronic conditions. National Institutes of Health, #P30NR015335, M. Kim, PhD, RN, FAAN, Principal Investigator. Funding period September 25, 2014 - July 31, 2019.

Pending Proposals

Principal Investigator, *Community Engagement for Health in Eastern Travis, Bastrop, and Caldwell counties via Radio, Social Media and Focused Neighborhood and*

Business Partnerships, submitted July 2019 to the St. David's Foundation for a Healthy Central Texas Fund Project, \$99,000, 09/15/2019-05/15/2020.

Recent Unfunded Proposals

Co-Principal Investigator, *Multicenter Comparative Analysis of the Relationships Among Genetic characteristics, Sources of Stress, Inflammation and Type 2 Diabetes Control in Mexicans and Mexican-Americans*, ConTex Proposals, UT-System-CONACYT Collaborative Research Grant, \$99,862, 09/01/2019-08/31/2020.

Principal Investigator, Contact PI, *From Community Trauma to Healing and Empowerment: Immigrant Communities Re-Claiming Hope and Action*, Interdisciplinary Research Fellows proposal submitted March 2019 to the Robert Wood Johnson Foundation; \$375,000 (direct + indirect costs), 09/01/2019-8/31/2022.

Co-Principal Investigator, *From Community Trauma to Healing and Empowerment: Immigrant Communities Re-Claiming Hope and Action*, LOI submitted April 2019 to the Episcopal Health Foundation; \$350,000 (direct + indirect costs), 09/01/2019-8/31/2022.

Principal Investigator, *Latinos' Diabetes Symptoms and Biomarkers*, R21 submitted October 2018 to the National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, \$420,896 (direct and indirect costs); 08/01/2019 – 7/31/2021, not discussed.

Co-Investigator, *Biomarkers and Symptoms in Persons Living with HIV*, J. Zuñiga, PI; R21 submitted September 2018 to Office of AIDS Research, National Institutes of Health; \$500,000 (direct + indirect costs); 07/01/2019 – 06/30/2021, not discussed.

Recent Completed Projects – last 5 years

Co-Investigator, *Self-Management of Aging-Related Bio-Behavioral Decline in People with OA*, grant from the Center for Transdisciplinary Collaborative Research in Self-Management Science, #P30NR015335, M. Kim, PI, T. Harrison, Pilot PI. The purpose of this mixed-method sequential study is to study the effect of self-management strategies on bio-psychosocial disablement outcomes in Mexican Americans with and without OA related disabilities.

Co-Investigator, *Investigating Biomarkers in People with the Dual Diagnoses of HIV and Diabetes*, J. Zuniga, PI. This study examines differences in biomarkers (serum inflammatory, coagulation, vascular and clinical values, DXA scan, vital signs) and their relationships with depression scores, symptoms, and medication regimen between people with HIV and those with HIV and diabetes. Funded by the St. David's Center for Health Promotion Research in Underserved Populations at The University of Texas at Austin School of Nursing. 04/01/17-03/31/18.

Principal Investigator, *Austin Household Level Assessments (HoLA)*, pilot study funded by the UT Austin Dell Medical School. The purpose of this study was to conduct qualitative research and use those findings to guide the protocol and to measure social

determinants of health and priority needs and connect people to needed health and social services for 07/01/18 – 12/31/18.

Co-Principal Investigator, *University of Texas Collaborative on Population Health Innovation and Improvement*, Dell Medical School Site, from The University of Texas Health System. Co-PI: William Tierney. The purpose is to prepare and implement a strategic plan for population health interventions. Support: none for salary. Total costs: \$324,000. Responsibility: overall management and coordination of population health interventions with other UT Health System medical school's population health programs. 1/28/16 through 8/30/17.

Co-Investigator, *Improving Self-Management of Diabetes in Persons with HIV*, pilot grant from the Center for Transdisciplinary Collaborative Research in Self-Management Science (P30NR015335, M. Kim, PI), J. Zuñiga, Pilot Principal Investigator. The purpose of this pilot study is to conduct focus groups for intervention planning; adapt, implement, and evaluate an existing community-based diabetes self-management educational intervention for people with HIV/AIDS and type 2 diabetes. 9/1/15-11/30/16.

Co-Investigator, *Improving Prenatal Health Communication: Engaging Men via E-Health*, funded by UT Austin – Portugal International Collaboratory for Emerging Technologies (IC2 Institute), CoLab (2015-2017), Office of the Vice President for Research at The University of Texas at Austin, M. Mackert, PhD, Principal Investigator. The purpose of this study is to design and pilot test an e-health intervention focused on the importance of prenatal health that would appeal to men and initiate paternal involvement in pregnancy health. \$40,000. 12/1/14-12/30/16.

Principal Investigator, *Comparison of Three Diabetes Knowledge Questionnaires for Hispanics/Latinos*, (UTIRB Protocol # 2012-08-0015), funded by the Cain Center Fellowship for Nursing Research, The University of Texas at Austin School of Nursing, started September 1, 2012. Additional funding from a Special Research Grant from the Office of the Vice President for Research, The University of Texas at Austin, 2015.

Co-Investigator, *Assessment of Health Literacy for Low-Income Mothers with Infants*, (UTIRB Protocol # 2014-10-0074), M. Kim, PI.

Co-Investigator, *Assessment of Health Literacy for Low-Income Patients in Travis County*, (UTIRB Protocol #2014-07-0015), M. Kim, PI.

Co-Investigator, *Ebola-related Information Wanted and Obtained by Healthcare Providers*, funded by the National Science Foundation, B. Xie, PhD, Principal Investigator. The goal of this study is to understand the types and amount of information wanted and obtained by healthcare providers from formal and informal organizational channels in crises like Ebola. 3/10-2015-3/9/2016.

Co-Investigator, *Adapting a Culturally-Tailored DSME Intervention for Occupational Health: Phase I, Focus Groups*, S. Brown, PI. Funded by the St. David's Center for Health Promotion Research. July 2013-July 2014.

Quality Improvement and Other Non-Human Subjects Research

Co-Investigator, *Survey of Social Determinants of Health in Del Valle, TX* funded by the Episcopal Health Foundation. Principal Investigator, Alexa K. Stuijbergen, PhD, RN, FAAN, 06/1/2019-5/31/2020.

Principal Investigator, *Austin Household Level Assessments (HoLA)*, pilot study funded by the UT Austin Dell Medical School. The purpose of this study was to measure social determinants of health and priority needs and connect people to needed health and social services for 07/01/18 – 12/31/18.

Faculty Sponsor of Funded Student Research

Mentor, *Using Interprofessional Education to Improve Community Health in Kenya: Illness, Art, and Economic Opportunity*, submitted for the President's Award for Global Learning (J. Zuniga, lead), at The University of Texas at Austin, June 2019.

Sponsor, *The Impact of Illness Perception, Diabetes Management Self-Efficacy, and Mental Distress on Type 2 Diabetes Self-Management among Chinese Americans*. Doctoral student, Ya-Ching Huang; Hogg Foundation Frances Fowler Wallace Memorial Award (\$1500).

Mentor and Sponsor, *Nurse and Nurse-Midwife Provided Recommendations for Postnatal Care of the Newborn in Eldoret, Kenya*, Doctoral student, Davika Reid; Robert Wood Johnson Future of Nursing Scholar and recipient of a University of Texas at Austin Global Research Fellowship (\$5000).

Co-Sponsor, *Culture and Food Practices of African American women with Type 2 Diabetes*, Doctoral student Lisa Sumlin, Sponsor, Dr. Sharon A. Brown; National Research Service Award (#1F31 NR013844-01), National Institute of Nursing Research, National Institutes of Health.

Sponsor, *The Lived Experience of TB and TB Treatment for Mexican Americans on the U.S.-Mexico Border*, Doctoral student Julie Zuñiga, funded by the Doris Bloch Research Award from Sigma Theta Tau International Honor Society of Nursing, 2012-2013, \$5000.

Sponsor, *Case Study on Emotional Support from Family and Friends of a College Student with Diabetes Mellitus*, Undergraduate Nursing Honors Student Czarina Lagon, funded by The University of Texas at Austin Undergraduate Research Fellowship 2009; \$1000.

Sponsor, *Evaluation of the Group Visit Model for Diabetes Care*, Undergraduate Nursing Student, Teri Chavira, funded by The University of Texas at Austin Undergraduate Research Fellowship 2004; \$1000.
