

Seeking early career nurse scientists interested in health equity research!

The University of Texas at Austin School of Nursing (UT-SON) announces a unique early nurse scientist training program, funded by an award from the University Provost's office.

This training program is similar to an NIH post-doctoral fellowship program. Early career fellows will be funded for 2 years, receiving formal training as nurse scientists to further their development as independent researchers, along with the opportunity to be nurtured and mentored as potential faculty members in the UT-SON. Fellows will receive competitive stipends and support for pilot research and professional travel.

UT-SON Training Environment

UT-SON Training Environment: The UT-SON provides an intellectual environment with excellent resources to support early career fellows in building independent scientific careers.

Transdisciplinary PhD Training

The UT-SON's new transdisciplinary PhD training program (NIH T32) provides future nurse scientists with critical skills and knowledge to develop and implement innovative, effective, personalized interventions for populations suffering from multiple chronic conditions.

UT-SON Centers of Research Excellence

PECCFP research training will also be supported by our two Centers of Research Excellence: the Center for Transdisciplinary Collaborative Research in Self-Management Science and the St. David's Center for Health Promotion and Disease Prevention Research in Underserved Populations (CHPR).

Eligibility Criteria

Ideal candidates for the UT-SON PECCFP will be PhD-prepared nurse scientists at an early stage in their careers who will: (1) contribute to achieving the UT-SON's goals for diversity, equity, and inclusion; (2) focus on health equity research (preferred); (3) demonstrate a commitment to completing 2 years of fellowship training; and (4) articulate a commitment to an academic career in teaching and research.

Application

Interested scholars should send an updated CV with a 3 page research plan

with a 3 page research planEmail to Jacki Hecht (jhecht@nursing.utexas.edu)

Deadling January 15, 2021 (5:00 pm CST)

O Deadline: January 15, 2021. (5:00 pm CST)

2021 Timeline

1/15 PECCFP applications due to UT-SON

Review of applications and interviews

2/28

3/1 Potential fellow selection and notification

6/1 → Po t-doctoral training begins
