

An Invitation

Adjunct Faculty/Clinical Affiliates

In gratitude for your invaluable role in the clinical formation of our APRN students we would like to let you know about the opportunity to become appointed as adjunct faculty/clinical affiliates after precepting for at least four semesters!

Here is more information from the UTSON Handbook in regards to the prerequisites for nomination:

To supplement our instructional program, the School may appoint professional practitioners in the community or within the University as adjunct faculty/clinical affiliates. The term “adjunct” is assigned to instructional faculty members in any rank whose primary employment responsibilities lie outside the University or in another capacity within the University. Appointments as adjunct faculty/clinical affiliates are part-time, on an annual or shorter basis, and are without tenure.

Subject to the Dean’s approval, the School may appoint professional practitioners in the community as adjunct clinical faculty in recognition of their commitment to the

education of our students. To be considered for a zero-funded adjunct faculty/clinical affiliate appointment, individuals must demonstrate the following:

- Service to the School of Nursing for at least four semesters.
- Certification or licensure in a particular area of expertise.
- Clinical excellence and serve as positive role model.
- Support the mission and goals of The University of Texas at Austin School of Nursing.

School of Nursing faculty who wish to nominate qualified preceptors or healthcare professionals will send an email to the Assistant Dean for Administration with the name of the nominee, their CV, their service to the School, and any evaluative comments about the nominee that qualify them for adjunct faculty status. If approved by the Dean, a letter and packet will be mailed to the nominee.

Adjunct faculty/clinical affiliates have full access to our UT library system, another nice benefit!

Please let us know if you are interested by contacting:
