RESEARCH SUPPORT

Current:

Arlyn Kloesel Endowment for Excellence in Pharmacy Practice Brown, C (PI) 2/01/2021-1/31/2022
Development of the Medication Access Screening Tool (RxMAST) in Patients with Chronic Diseases.

Amount: \$45,114

Goal: To develop an assess a brief medication access screening tool that is grounded in social determinants of health that drive suboptimal medication use.

Role: Co-Investigator

Completed

St. David's Center for Health Promotion Research Moczygemba, LR (PI) 04/17/2020-5/31/2021
Integration of an mHealth Intervention with Community Navigation Services for People Experiencing Homelessness

Amount: \$30,000

Goal: To decrease hospital and emergency department visits among people experiencing homelessness by integrating mobile health technology in a community setting in order to connect people experiencing homelessness with health and social services.

Role: Co-Investigator

CDC-RFA-DP18-1817 Barner, JL and Moczygemba LR (MPI) 9/1/2018-9/1/2020
Innovative State and Local Public Health Strategies to Prevent and Manage Diabetes and Heart Disease and Stroke CDC-RFA-DP18-1817

Goal: Promote the adoption of medication therapy management between community pharmacists and physicians for the purpose of managing high blood pressure, high blood cholesterol and lifestyle modification.

Role: Subcontract Co-investigator

Southern Nursing Research Society Thurman, W (PI) 6/1/2017-5/30/2018
A Grounded Theory Study of Adults with Disabilities in Rural Communities

Amount: \$5,000

Goal: To investigate how working-age adults with mobility and sensory disabilities living in rural counties define and pursue well-being.

Not Funded

Institute for Rural Population Health & Aging Thurman, W (PI)
Exploring the Role of Informal Partnerships and Social Networks in the Provision of Long-Term Services and Supports in Rural Texas

Amount: \$14,999.26

Goal: To investigate the nature and scope of how informal partnerships and social networks substitute for formal long-term services and supports in rural communities.

National Institute of Nursing Research, National Institutes of Health Garcia, AA (PI)

Influence of Social Connections on Health Outcomes for People with Diabetes

Goal: To investigate the underlying mechanisms of four types of social connectedness for older adults who have diabetes and a co-occurring chronic disease.

Role: Co-Investigator
