RESEARCH and SCHOLARSHIP

Acute illness is the overarching framework of my work. My research and publications have most often been in one of these six categories.

- 1) Heart failure/heart health and illness
- 2) Family presence during resuscitation and invasive procedures
- 3) Clinical Nurse Specialist practice and competencies
- 4) Acute care nursing interventions related to cardiopulmonary health and recovery, especially oxygenation
- 5) Prevention of adverse events in healthcare settings/culture of safety
- 6) Outcomes from cardiopulmonary resuscitation

Conceptual Model for Research: Promoting Health Within Acute Illness States

Completed Research:

Family Presence During Pediatric Trauma (study of parents/adults who have the FP experience). (Children's National Medical Center, Washington, D. C., Philadelphia Children's Hospital, and Children's Hospital, Dallas, Tx. Funding: HRSA Grant #08-049, 2009-2012. P. I.: Karen O'Connell, MD + large research team. Nursing research consultants: Cathie Guzzetta, PhD, RN; **Angela Clark**, PhD, RN, (my primary role-to do the qualitative analysis). My other responsibilities: critiqued research grant prior to submission, critiqued data collection instruments for clinical study, made ongoing recommendations for interviews, attend team meetings, work on manuscripts. My consultant role funded -- mentoring Michael Aldridge, PhD, MSN, CNS, doctoral student at the time. Major manuscript published 2017.

Health-Promoting Self Care in People Living with Heart Failure. Angela P. Clark, PI; Graham McDougall, Co-investigator; Research team: Ashley Davila, CNS; Carol Delville, CNS; Glenda Joiner, PhD, CNS; Sheri Innerarity, PhD, FNP, CNS; and Marty Meraviglia, PhD, RN, CNS. NIH/NINR R03, \$ 144,146, Clark PI, August 2005-July 2007; no-cost extensions August 1, 2007-July 31, 2008; August 1, 2008-July 31, 2009. Two manuscripts published.

Characteristics of Sleep Disorders in People Living with Heart Failure. Angela P. Clark, PI and Seton Heart Failure Clinic Staff. IRB Consent from UT Austin & Brackenridge/Seton IRB. Data collection completed. Mentored APN staff in clinical research process. Grant funding received Jan. 2007 from the Texas Organization of Baccalaureate and Graduate Nursing Education (TOBGNE) as the "Inaugural Recipient of the TOBGNE Excellence in Research Award-2007". Award amount \$1500 + matched by UTSO N Cain Center for \$1500= \$3,000. Doctoral student assisted with data entry Fall 2010.

Validation of Core Competencies for Clinical Nurse Specialists. Angela P. Clark, PI, Kathy Baldwin, Jan Fulton, Brenda Lyon, Sue Davidson. The study was to validate national competencies for Clinical Nurse Specialists. Initial IRB approval July 2005, continued until July 2007 for sample size of 400+ CNSs. Questionnaire was loaded on Survey Monkey via NACNS website. Analysis completed-preliminary analysis of data by Dr. Barbara Hazard (Munro) completed and information provided to ANCC for new national CNS certification exam to at role level. Internal funding by the National Association of Clinical Nurse Specialists (NACNS). Findings reported in national journal summer 2009.

Family Presence during Resuscitation Interventions and Invasive Procedures:

Attitudes and Experiences of Healthcare Providers and Family Members (the Pediatric Study of Family Members) (done at Children's Hospital, Dallas, Texas). 2005-2007 data analysis and manuscript development, dissemination of findings; 2003-2004 data collection.

Funding: \$8640.00 by the Strauss Distinguished Professorship in Pediatric Surgery, University of Texas, Health Science Center of Dallas /Children's Medical Center of Dallas. Research team includes: Janice Mangurten, PI, Lori Mintle Vinson, Shari Scott, Jenny Sperry, Sue Scott, MD, Barry Hicks, MD, Lonnie Roy, PhD, Cathie Guzzetta, PhD, RN, **Angela Clark**, PhD, RN, Wayne Voelmeck, (doctoral student research assistant for qualitative analyses).

My role: critique research grant prior to submission, critiqued and modified data collection instruments for clinical study; mentored team members; completed all of the **qualitative data analysis**; assisted with quantitative analysis; manuscript development. Grant funded for \$8640, my role funded for \$5000 (used to providing UT graduate student with research training experience).

Hartford Nurse Competence in Aging SNAP Grant, 2003-2005 (SNAP=Specialty Nursing Association Partners in Geriatrics), Awarded to the National Association of Clinical Nurse Specialists, Co-PIs: **Dr. Angela Clark** and Dr. Kathy Baldwin, \$ 13,000--\$11,800 initially + additions for website enhancement. Awarded by The Hartford Foundation/American Nurses Association/American Nurses Credentialing Center. (I wrote the initial competitive grant, made revisions and submitted for NACNS; one of 11 initially awarded to national organizations).

Description requested by funder: The Atlantic Philanthropies (USA) Inc., awarded to the American Nurses Association (ANA) through the American Nurses Foundation (ANF), and representing a strategic alliance between ANA, the American Nurses Credentialing Center (ANCC) and the John A. Hartford Foundation Institute for Geriatric Nursing, New York University, The Steinhardt School of Education, Division of Nursing.

Health Promotion in Heart Failure. Pilot research study funding \$10,000 from the Center for Health Promotion and Disease Prevention (CHPR), NIH/NINR Grant; June 2001-May 2002. Research team: **A. Clark**, PhD, RN, PI; Nell Gottlieb, PhD, Co-investigator; Carol Delville, and Dorothy Darby (graduate students). Presentation to the American Heart Association Scientific Forum on Quality of Care and Outcomes Research in Oct 2002.

Broken Hearts: The Experience of Symptom Management in Heart Failure. Research Project funded by the Dean's Faculty Research Award (\$1000). 2000-2002. New population in research of nursing interventions, begun with pilot work on symptom management. Research team included two recent MSN graduates of UT CNS program (5/98): Cheryl Windstein, RN, MSN and Sheena Carswell, RN, MSN, who were mentored in research training, both now working in field of heart failure. Data collection 1998-1999, Presentation given at American Heart Association Scientific Forum on Quality of Care and Outcomes Research Oct. 2001.

Family Presence During Resuscitation/Invasive Procedures (the Parkland Study). Research Project funded by the Emergency Medicine Foundation/Emergency Nursing Foundation Team Grant, for a clinical study at Parkland Hospital Emergency Room, Dallas, Texas, with data collection between Sept. 1996-April 1998, data analysis 1998 and publications 1998-2001. Research team: **A.Clark**, C.Guzzetta, T. Meyers, D. Eichhorn, J. Klein, E. Taliaferro and others. My role: assisted in writing research grant prior to submission (began Jan. 1996), critiqued and modified all data collection instruments for clinical study; conducted the qualitative data analysis, grant funded for \$ 10,000, my role funded for \$ 2600 (used for providing graduate students at UT with research training experience; Amy Calvin, doctoral student at time). Multiples papers published.

Awards Received for this Research Study:

- 1) Our integrated media campaign, "Bedside in the ER" was selected by the American Academy of Nursing Media Award to receive the 2000 AAN Media Award, presented at Nov. 2000 AAN meeting to Lippincott, Williams and Wilkins (via Dr. Diana Mason, Editor-in-Chief of the American Journal of Nursing).
- 2) Regional Public Media Award from Sigma Theta Tau International.

- 3) Regional Research Dissemination Award from Sigma Theta Tau, presented in San Francisco, Feb. 23, 2001.
- 4) 2001 **Recipient of the International Nursing Research Dissemination Award from Sigma Theta Tau (only one given)**, presented in Washington, D.C. Nov. 12, 2001.
- 5) **2006 Dr. Angela Clark and Dr. Cathie Guzzetta, selected as "Edge Runners" for recognition and presentation at the American Academy of Nursing meeting November 2006.**

Dissemination of our research and national impact of publication about patient perceptions of the experience of family presence:

Broadcasts: ABC News/World News Tonight June 13, 2001 (syndicated to other ABC affiliates also, plus posted on ABC.com); CNN Live at Daybreak-May 4, 2001; CNN Your Health-May 12, 2001 (plus repeated on Headline News on May 5, 2001 and syndicated to numerous other stations and affiliates, plus also posted on CNN.com; WFAA (ABC Dallas)-done through Parkland Hospital (syndicated to other ABC affiliates also).

Print/Online: Associated Press-May 4, 2001 (picked up in numerous newspapers nationwide, also same story redistributed on May 21 as part of health information "package" to subscriber newspapers); Star-Ledger (New Jersey's largest newspaper); The New York Times-May 15, 2001 plus syndicated to newspapers nationwide through the NY Times News Service; Newsweek-July 11, 2001; American Medical News (story plus letter to the editor); WEBMD.com; HEALTHSCOUT.com; REUTERSHEALTH.com.

Dissemination of our research and national impact of publication about family members, physician and nurse responses:

Findings were aired 126 times on national TV news affiliation networks in 67 markets reaching an estimated total audience of 8,636,000. Featured stories on the study were aired on NCB Dateline and Good Morning America. The findings were also broadcasted on major radio networks throughout the US reaching over 10,000 radio stations and disseminated via consumer print in newspapers (e.g. USA Today, New York daily News, Washington Post, Chicago Sun Times, Dallas Morning News) and magazines (e. g. Time Magazine, Redbook Magazine). Numerous internet sites also carried the study findings to the public (e. g. ABC News.com, USAToday.com, Yahoo.com, WebMD.com, CNN.com).

Pulmonary Artery Pressure Changes Following Endotracheal Suctioning (ETS). A. Clark, PI; Team: Winslow, Tyler, White.

The Meaning of the Heart Transplant Experience. Principal Investigator: A. Clark; Co-Investigators: S. Innerarity, J. McSweeney, B. Richards, C. Oswalt, MD, D. Tyler, M.B. Mitchell. Data Collection Spring 1993-1994, analysis of data and preparation of manuscripts 1995-present. Funding: BRSG Grant to Dr. Clark Summer 1993 for \$ 3037.

Nursing Interventions and Mixed Venous Oxygen Saturation. **Principal Investigator:** A Clark, Co-Investigators: D. Rutledge, E. Winslow and K. White. PHS NIH-NCNR Grant Approval (1R01 NU/HSO1440). Approved 1986, Funded 1987-1990. Data collection, 1987-1989; data analysis 1990; Final Report for Phase I submitted Aug. 1991. Total research grant \$233,000.

Funded as : Nursing Interventions and Mixed Venous Oxygen Saturation (SvO₂)

Developed as: The Effects of Suctioning, Turning, & Backrubbing on Mixed Venous Oxygen Saturation (SVO₂) and Cardiovascular Responses in 189 Critically Ill Adults.

Nursing Interventions and Mixed Venous Oxygen Saturation. **Principal Investigator:** A. Clark; Co-Investigators: E. Winslow, D. Rutledge. Submitted Continuation Grant Proposal to PHS NIH-NCNR in March 1991. NIH Approved but not funded. Developed as: The Effects of Open vs. Closed Suctioning on Mixed Venous Oxygen Saturation (SVO₂) and Cardiovascular Responses in Critically Adults and The Effects of Hyperoxygenation on Turning in Critically Ill Adults.
